## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-8, 13-16, 22 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Rubin, US 5,059,603. Broadly interpreted, the claims are anticipated by the Rubin disclosure. Applicant claims a preparation for topical application comprising a vasoconstrictor and a penetration enhancer. Applicant states in the claims that the vasoconstrictor is for retarding vascular dispersion of a therapeutic agent. The Rubin vasoconstrictor functions to treat impotence. Although Rubin does not disclose that the vasoconstrictor inhibits vascular dispersion, this function inherently occurs. Accordingly, the claims are anticipated. Regarding claims directed to the composition percentages, see Example 2 in column 9 and column 4, second paragraph.

### ***Allowable Subject Matter***

Claims 9-12, 17-21, 23-65 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 66-150 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: The claims recite embodiments which would not be envisioned when reviewing the Rubin disclosure. For example, the anesthetics are not likely to be included. Claim 66 is allowed in contrast to claim 1. The vasoconstrictor of Rubin is not functioning as a method to control agent dispersion.
